## What is the RheoDol® Body Hygiene

RheoDol® Body Hygiene offers an innovative, bioscience-based product system for gentle body cleansing without the use of water or soap. This biocompatible, pH-neutral, mild liquid is suitable for continuous use on the entire body, including the face, neck, ears, upper body, abdomen, arms, hands, legs, and feet.

For these patient groups, RheoDol® Body Hygiene provides a long-lasting, cost-effective, and optimal solution, counteracting skin irritations such as xerosis cutis, IAD (incontinence-associated dermatitis), diaper rash, intertrigo, and skin tears. Further information can be found on the following pages.

## Instructions for use

Full body wash RheoDol® Body Hygiene

## RheoDol® Body Hygiene Liquid plus

### Body cleansing & care

Use approximately 10-20 ml in the morning, evening, and as needed for cleansing and caring for the body areas shown in Figures 1 to 8.

For full-body cleansing/care and removal of deposits such as excretions, use commercially available disposable patient wipes or disposable wash mitt. Use one wipe per body part or area, as indicated above.

Rinsing is not necessary. Residue of the liquid remains on the skin for its nourishing effect. Avoid rinsing with water if possible.

### Application

- Unscrew the bottle cap.
- Dispense the solution from the bottle to saturate the cleansing wipe or wash mitt.
- Apply the solution to the skin.
- Close the bottle after use.
- Label the bottle with the date after opening.
- Store in a dry place, protected from light, at room temperature (use within 12 months of opening).

1. Face, neck, and chest
2. Right arm and armpit
3. Left arm and armpit
4. Lower abdomen (front)
5. Right leg and foot
6. Left leg and foot

7. Back
8. Lower abdomen (rear)
